THE BEAUTY OF MADE IN CHINA

"The Beauty of Made in China" is a national competition of industrial designs. There is a gap hard to fill between design organizations and small and medium-sized enterprises currently in China. The competition is expected to build a platform to realize mutual communication between the two.

"The Beauty of Made in China" this year is co-hosted by China Industrial Design Association, Southern Weekend and Made-in-China. CIDA, as an industrial authority, is the only national industry organization within the field. Made-in-China is the third largest domestic B2B website aimed to help upgrade tens of millions of its members. Southern Weekend, as a popular newspaper with great credibility, guarantees the seriousness of the whole competition.

Our purpose is to break the traditional concept of "Made in China" and to promote the product upgrade of small and medium sized enterprises. This will in turn help Chinese products to win the bargaining power in overseas markets. We've therefore made several efforts: we invited senior designers to give practical lessons about industrial design and industrial docking to participating enterprises; we'll interview renowned designers to collect practical and helpful design news; we'll also provide an opportunity of face-to-face communication for designers and the SMEs at The Summit Forum on Innovative Development of China's Manufacturing Industry.

All participating enterprises could get further information about industrial design and apply to practice during the process. In this way, it's easier for them to demonstrate their advantages and to call upon the design consciousness of all SMEs in China. Innovation is to be shared. All award-winners are entitled with full channel business promotion to buyers at home and abroad.

Get united, all designers across the nation.

Get united, all SMEs around the country.
Get united, all that expect Made in China to be more beautiful.

Foreign Businessmen Invited as Observer Group in 2013 Annual Awards of "The Beauty of Made in China"

It is particularly worth mentioning that members in the foreign chamber of commerce are invited this year to form an observer group. They are to offer valuable suggestions for the insiders of "Made in China".

2013 Annual Awards of "The Beauty of Made in China" build a communication platform for Design Organizations and SMEs.

Combining Strength & Advanced Features
